

---

## Cost

In addition to the tuition and fees, nursing students are assessed \$50 for each nursing course containing a laboratory component and \$10 per credit hour nursing fee. Students are required to provide transportation to practicum experiences.

Additional requirements for practicum experience may be found in the [Lincoln University Undergraduate Bulletin](#), the [School of Nursing Student Handbook](#) or <https://www.lincolnu.edu/nursing>

# RN-BSN Program

Congratulations on your interest in continuing your education in nursing. Today, nursing is a dynamic, challenging, and increasingly important field in the ever-changing world of healthcare. Career advancement in the healthcare field requires skill in analysis and evaluation, patient care management, evidence-based practice initiatives and a depth of professional knowledge only possible through advanced education.

The RN-BSN Program offers the registered nurse opportunities to build on knowledge and experience gained in previous nursing programs and employment. Role development, attaining mastery in *The Essentials of Baccalaureate Education for Professional Nursing Practice* (AACN, 2008) is facilitated through individualized program planning and practicum experience.

Nursing classes are offered online allowing the student to meet complex family and employment demands while continuing professional education and career development. Student interaction is enhanced through campus based seminar presentations.

The program is designed for associate and diploma program graduates and may be completed in full-time or part-time student status. Upon completion of the ACEN accredited program, students are prepared for professional nursing practice and pursuit of graduate education.

ACEN Contact Information  
 3343 Peachtree Road NE, Suite 850
